

ASSAD ALLAH ALEBRAHIM

AI Engineer & Architect | Business Intelligence Specialist

Email: contact@asad-allah.com | Phone: +96176876530 | LinkedIn: [Assad Allah Alebrahim](#) | Location: Beirut, Lebanon | GitHub: [@Asad-allah](#) | Portfolio: asad-allah.com

PROFESSIONAL SUMMARY

AI Architect and Data Engineer with 5+ years of experience bridging the gap between database optimization and Agentic AI. Expert in designing **end-to-end RAG systems**, deploying **local LLMs**, and building **Flutter-based** mobile interfaces. Proven track record of reducing operational costs by 20-30% through intelligent automation and BI dashboards.

TECHNICAL SKILLS

- **AI & Agents:** LangChain, LangGraph, PydanticAI, RAG Systems, Fine-Tuning (Ollama/Hugging Face), NLP, Embeddings.
- **Development:** Python (Advanced), SQL/PL/SQL (Expert), Flutter (Dart), JavaScript, APIs (FastAPI/REST).
- **Data & Vector DBs:** Oracle, SQL Server, ChromaDB, Elasticsearch, FAISS, Pinecone, ETL Optimization, PostgreSQL.
- **Tools & Cloud:** n8n, Docker, AWS SageMaker, Power BI, Git, Jira, Google Analytics

PROFESSIONAL EXPERIENCE

Full Stack AI Engineer & Architect | Independent Consultant *Remote*

September 2025 – Present

- End-to-End Product Development: Architecting AI-powered SaaS platforms and mobile applications (Flutter), handling the full lifecycle from UI/UX to backend logic.
- Advanced RAG Implementation: Developing custom Retrieval-Augmented Generation workflows that integrate with proprietary datasets to provide context-aware AI responses.
- Agentic Systems: Building autonomous AI agents capable of executing multi-step workflows (research, planning, execution) with minimal human intervention.

Marketing and AI agent and Business Analyst | Cogent Softech, Beirut, Lebanon

January 2025 – September 2025

- Developed AI-powered marketing automation using n8n workflows, reducing manual tasks by 30%.

- **Intelligent Search Systems:** Implemented Agentic RAG systems using Elasticsearch filters, improving customer support search accuracy by **25%** through semantic query optimization.
- Built fine-tuned language models using Ollama and local deployment strategies.
- Designed BI dashboards in Power BI integrating Google Analytics, HubSpot, and Meta Suite data.
- **Orchestrated organic growth strategies** for client accounts, achieving **800% growth** in 3 months through data-driven content targeting and automated analytics.
- Build marketing strategies and do marketing research SOWT

Business Intelligence Analyst | WAFA Telecom, Damascus, Syria

May 2024 – January 2025

- Engineered BI solutions for telecom operations, processing CDR, CRM, and ERP data.
- Developed interactive Power BI dashboards providing real-time insights into network performance.
- Optimized ETL processes using SSIS, improving integration efficiency by 20%.

Chief Technology Officer | OTI-DAWOD Company, Damascus, Syria

2023 – May 2024

- Led digital transformation initiatives across Damascus province operations,
- implementing AI-driven process automation
- Managed technology strategy and software development teams, delivering
- solutions aligned with organizational goals
- Oversaw database architecture and system optimization projects, ensuring
- scalability and performance

Database Administrator & Oracle PL/SQL Developer | OTI-DAWOD Company, Damascus, Syria

2020 – May 2024

- Administered enterprise Oracle and SQL Server databases ensuring 99.9%
- uptime and robust security protocols
- Optimized database performance through advanced indexing strategies,
- achieving 30% improvement in query execution
- Developed complex stored procedures and automated data pipelines for ERP
- system backend services
- Conducted performance tuning for large-scale applications, reducing query
- execution time by 23%
- Implemented database auditing and monitoring solutions for compliance and
- optimization

Business Analyst | OTI-DAWOD Company, Damascus, Syria

2019 – May 2024

- Enhanced project management system efficiency by 35% through advanced
- data analysis and Power BI visualization
- Reduced operational costs by 20% via process optimization and error
- minimization strategies
- Developed real-time business intelligence reports providing actionable

- insights for executive decision-making
- Streamlined workflow processes using data-driven approaches and KPI
- tracking methodologies

EDUCATION

- **Master in Web Science** | Syrian Virtual University | 2023 - Present | Damascus, Syria
- **Bachelor of Information Technology Engineering (AI Specialist)** | Damascus University | 2016 - 2022

CERTIFICATIONS & TRAINING

- **Generative AI in Marketing Specialization** | University of Virginia Darden School Foundation
- **Adobe Content Creator Professional Certificate** | Adobe
- **Marketing Analytics Certificate** | University of Virginia
- **IBM RAG and Agentic AI Professional Certificate** | IBM
- **LangChain for LLM Application Development** | DeepLearning.AI
- **AI Agents in LangGraph** | DeepLearning.AI
- **Building Generative AI Capabilities** | University of Virginia Darden School Foundation
